

Ankr + Your Cancer Team = Best care for You!

Did you know? Good cancer education can help you prevent complications and decrease costs?

Ankr is a revolutionary AI-powered education & navigation platform to give you high quality care experience for your cancer journey.

Congratulations on creating your Ankr account. Now, let's get started!

Best treatment for You!

Ankr uses artificial-intelligence (AI) to navigate you through your treatment options. Your MN Urology team will help get you started.

Not a substitute for medical advice. See terms and conditions for details.

Friends & Family Welcome

Ankr empowers you to share information with friends and family as you wish.

So, when you make that audio recording of your doctor visit in the Ankr app, they can hear it real-time on the web platform (my.ankr.us) from anywhere.

How to use the Ankr App?

Ankr was designed by patients and Doctors who have walked in your shoes. It's very easy to get started. Go to <https://ankr.us/download> or scan the barcode to download the Ankr app. Then open the App & create your own secure account in a couple of minutes. **And you are in!**

In the middle of your Homescreen, there are three sections: **Information, Learning Center & Resources.** Let's learn about them...

Information

Cancer Details

Use this to track your cancer details.

Once you/your health team enter the required information, our AI-algorithm combines national treatment guidelines with your Doctor's recommendations to give you a list of treatment recommendations relevant to you.

As you learn more about your cancer, just update this section to learn about new recommendations.

Cut out all the noise & anxiety from endless Google searches & social media posts.

Treatments

This section shows you all treatments that:

- your health team has assigned to you
- treatments that you have saved

In addition, you can see and learn about ALL treatments in our catalog of thousands of cancer treatments.

Learn about all your options in an easy-to-understand form written by a team of cancer experts. For free, anytime.

Learning Center

Create your own reading list, or save something to share with your family or friend. Or use when you want to read something, but later!

Just open any **treatment** or **symptom** and click **Add to learning center.**

Resources

This is your personal goldmine for everything related to your Doctor's office. Get **surgery orientation material** and learn about **your Doctor, clinic updates** & upcoming **patient webinars.**

All in the palm of your hands, in one location, anytime you need it.

And even more awesome features

Symptom Support

Medication Tracker

Doctor's Mode

Write Note

We are not done yet! Ankr has all a cancer patient may need and then some.

- **Symptom and medications tracker**
- **Doctor's Office mode**
- **Audio & written notes for your own journal**

Want more.. get Ankr^{Pro}

A **subscription** gets you **additional features, priority customer support & VIP access to patient summits.** Plus, it helps us give this service to free to hundreds of patients in the US. **Support us** by buying a Pro subscription or gifting it to someone in need. Go to <https://ankr.us/hope>
